## OBJECTIVE

With a passion for technology and a drive to learn, I'm on a steady journey of skill development. I may not be the fastest, but I firmly believe in the power of perseverance. As a final year B.Tech student majoring in Computer Science and Engineering, I bring a strong foundation in theory coupled with a relentless commitment to excellence. I am eager to apply my focus, perseverance, and hard work ethic to a dynamic role as an Engineer or Senior Engineer within a renowned organization. My goal is to bridge the gap between theory and practice, contribute my expertise in areas like software development and programming, and continuously push my boundaries while making a meaningful impact on challenging projects.
